Installation Guide:

## 8-12Pin PTC Motorprint KIT
## Varenummer: 400098

Installation Guide

8-12Pin PTC Motorprint KIT

1. Remove your old motor print board by drilling out the rivets.

2. Check to see if it is a PTC or NTC sensor fitted on your old motor print board.
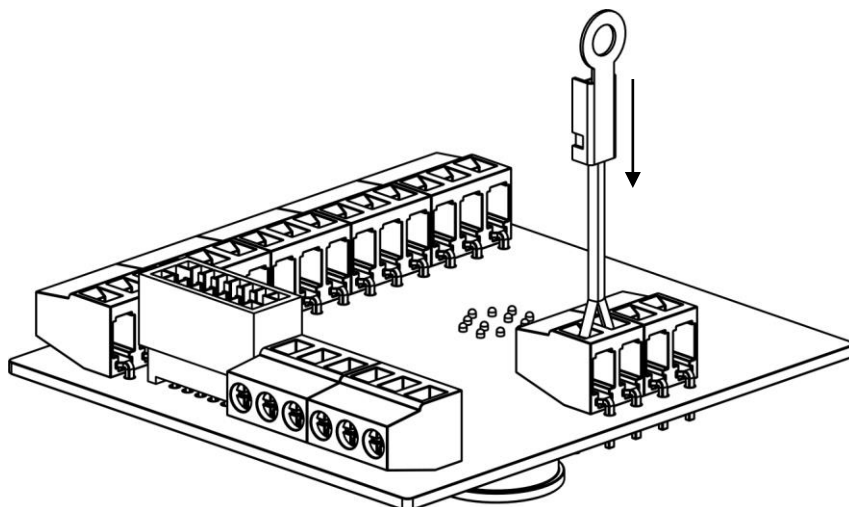

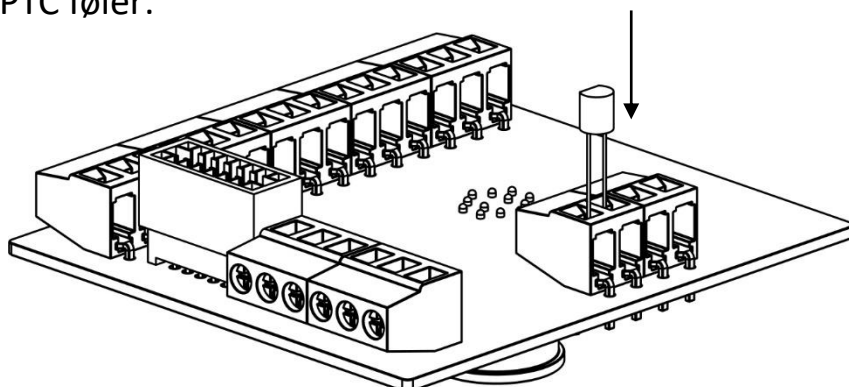

NTC føler:

PTC føler:

3. Depending on what kind of sensor was on your old motor print board, install the same type on your <u>new</u> 12 pin motor print.

NTC føler:

PTC føler:

4. Install the supplied bracket on the underside of burner with the rivets.
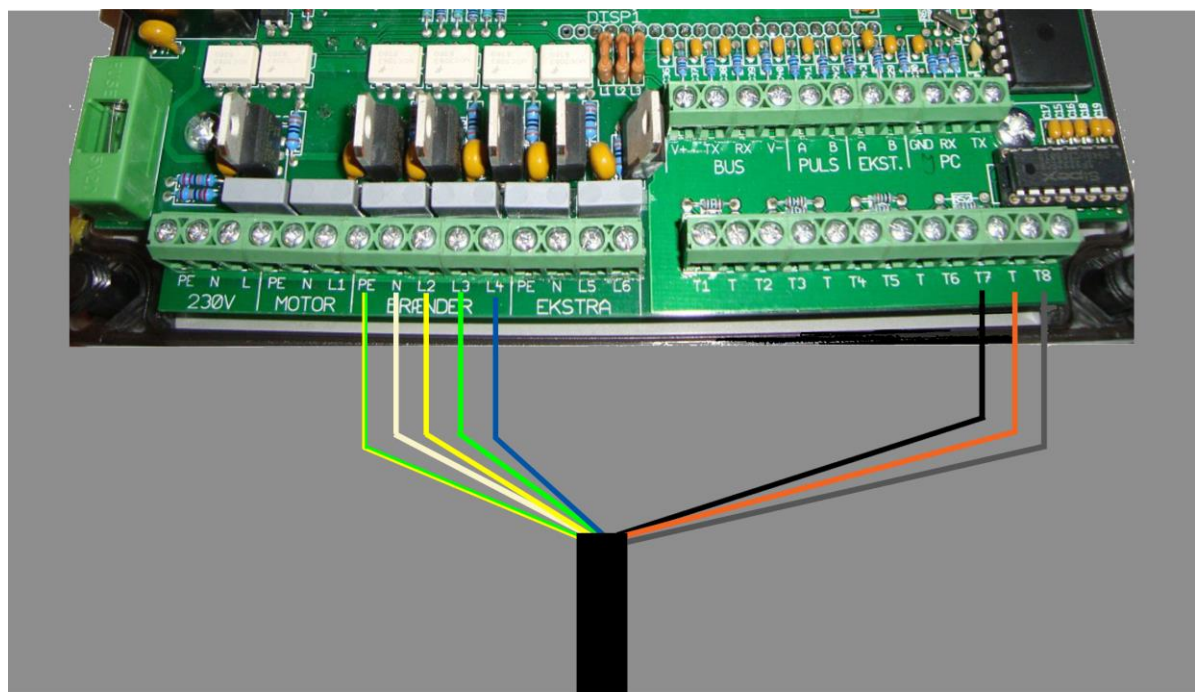

5. Secure your new 12 pin motor print to the burner.

6. Finally, wire the leads of the burner plug to the main print board as shown below:
